

On Saturday evening after we sang at church for the Facebook sing-a-long video, Jeff and I noticed the March missions project basket was overflowing with birthday bags donated by the congregation. These bags are wonderful...they contained birthday plates, napkins, candles, cake mix and icing. I decided to go ahead and take them to deliver this week.

We normally donate to the Hancock County Food Pantry, but when I called they said they weren't accepting donations because of COVID. I called a friend to see if she knew of a place that could use them and she sent me the number for The Hope Center. They also have a food pantry. When I called the lady that answered was so excited...she said they were running low on things and that Monday was a distribution night. She said if I could get them there quickly they could pass them out that night! When I dropped them off she said what a special treat this would be for so many.

I couldn't help but think that God knew all along who would need a birthday bag for their family. That He would use such a simple thing to remind someone of His care and faithfulness. Our God cares about every detail of our lives! Thank you to those who so generously donated. Isn't it a blessing to think about who is being blessed because you gave?
